### PRESCHOOL

Preschooler kids start to form a basic understanding of scholastic topics that they will continue to build upon in the future. Preschool is an exciting time as small students learn about simple shapes, sounds, things, letters and how to sort objects in a gameplay modes. They will not remember all the words immediately and teachers should not expect them to. First they will understand the meaning of the words by seeing the pictures or touching it. In this way flashcards and other visual aid could be an important tools. Lesson plans, interactive stories, and other sources are exceptional tools to get children interested in learning for the rest of their lives.
